

# J3 Launches Metals Lab

In response to numerous customer requests, J3 is pleased to announce the addition of lead/metals analytical testing with the grand opening of its Metals Lab.

The J3 metals lab is equipped with a state of the art Shimadzu AA-7000 Flame Atomic Absorption Spectrophotometer featuring high-sensitivity analysis, flexible system configuration, advanced safety technology, accuracy management (QA/QC) functions, and newly developed 3-D double beam optics.

Your J3 team of professional analysts, armed with the addition of advanced instrumentation, look forward to providing you with quality, cost effective metals analysis while maintaining the high level of service our customers have grown accustomed to.

Leading our new team is **Elizabeth Nguyen**, our Metals Lab Manager who is currently working on a Master of Science in Public Health and is in the process of becoming a Certified Industrial Hygienist. Elizabeth brings over ten years' experience working in both environmental and industrial hygiene labs.
